

## Quarantine and isolation process brief: General cleaning

<b>Description</b>	Process for cleaning general use areas across the quarantine site (not for red or orange resident zones).	
<b>Aims</b>	<ul style="list-style-type: none"> <li>• General use areas in the quarantine are kept clean and hygienic for staff.</li> <li>• Site general cleaning is conducted effectively to remove the number of infectious particles that may be present on a surface.</li> </ul>	
<b>Related toolbox sections</b>	Section 2 Infection prevention and control: 2.8	
<b>Process Considerations</b>	<p>A combination of cleaning chemicals, cleaning equipment and cleaning techniques is required for effective cleaning outcomes.</p> <p>Frequently touched areas such as bench tops, shared computers, door handles, light switches, toilets, and taps need to be cleaned more regularly and then disinfected.</p> <p>Disinfectants are recommended to contain 70% + alcohol, or hydrogen peroxide (oxygen bleach) or sodium hypochlorite (chlorine bleach) to be effective on hard surfaces.</p>	
<b>General Cleaning Process</b>		
<b>Task</b>	<b>Process</b>	<b>Core Points</b>
Provision of cleaning products	<ul style="list-style-type: none"> <li>• Each area within the quarantine site has a set of designated cleaning equipment to avoid cross-contamination.</li> <li>• All cleaning chemicals are stored safely according to their individual guidelines and the date the product is opened is clearly written on the product or accompanying auditing documents.</li> <li>• Personal protective equipment (PPE) is provided if required for certain product use (such as gloves).</li> </ul>	<ul style="list-style-type: none"> <li>• Designated cleaning products</li> <li>• PPE provided</li> </ul>
Cleaning technique	<ul style="list-style-type: none"> <li>• Any hazards in the area are identified and cleared prior to cleaning commencing (for example water spills).</li> </ul>	<ul style="list-style-type: none"> <li>• Clean to dirty technique</li> </ul>

	<ul style="list-style-type: none"><li>• The appropriate times are allocated for the area to be cleaned (for example cleaned whilst staff are out of the office).</li><li>• Cleaning is completed from clean to dirty areas.</li><li>• Low-touch or lightly soiled areas are cleaned before high-touch or heavily soiled areas.</li><li>• Cleaning proceeds from high-reach surfaces to low-reach surfaces.</li></ul>
